

Train the Trainer Services

Our Curriculum in Action

Our train-the-trainer program is designed to empower Learning and Development professionals and sales and recruiting managers with the necessary skills and knowledge to teach Menemsha Group's curriculum. We provide expert guidance on Menemsha Group's curriculum so that they can also be effective instructors within their organization.

How We Train the Trainer

Menemsha Group participants will have the opportunity to hone their teaching skills by hosting twelve, live instructor-led training sessions via video conference and sharing what they've learned from our program curriculum. They'll be educating a member of our Menemsha staff – an exciting challenge that can only deepen understanding.

Participants are required to explain and demonstrate the application of the knowledge, skills, tools, and strategies taught in the Menemsha Group program within the context of real-life, everyday staffing and recruiting scenarios. Participants will also grade select missions completed by Menemsha Group staff and provide quantitative and qualitative feedback.

Participants will be evaluated by Menemsha Group staff on their ability to model the desired behaviors and coach and reinforce the training curriculum.

Empower Your Team

Our proven recruiter training content is designed to develop winning recruiting behaviors that deliver repeatable and predictable revenue growth. See how it can help your team flourish.
